

“I chose to study for the CERA qualification to establish myself as a risk expert.”

**Tino Madzingira**  
Chief Pricing Actuary, RGA

## A CERA tells us their story

### **Brief Work history:**

2010 - 2014 Life Reinsurance Pricing at RGA

2014 - 2015 Actuarial Consulting – Life Insurance

I chose to study for the CERA qualification to establish myself as a risk expert. I had already studied the Financial Risk Manager (FRM), an international professional certification offered by the Global Association of Risk Professionals (GARP), but I needed something that tied in with my actuarial background.

The CERA qualification has added value to my career path – it has taught me to speak the ERM language and to appreciate the tremendous value it brings. The days of risk management for the sake of compliance are far behind us!

My advice to someone considering studying the qualification - first understand why you want to do it and the value it will bring in your career path.

The future of ERM will be around making it a more natural and intuitive part of the business process.
